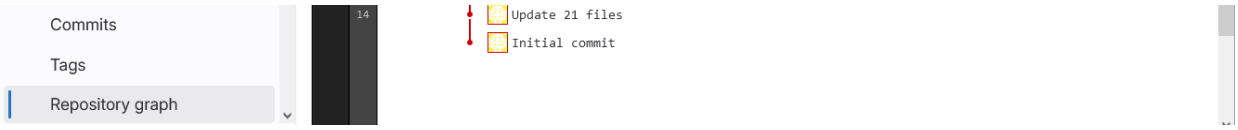
Step A Screenshot

I initially could not find the correct tab with the repository graph, but I was able to take screenshots of where it would have been in the graph at the time. Below is a screenshot of the current repository graph in Gitlab after completing the steps in A:



Step B Screenshot

This is where I cloned the repository. Below is a screenshot of the command line action after completing the steps in B:

```
FasterSSD@DESKTOP-25U5USE MINGW64 ~/Documents/WGU/d197/001083248_D197

Step C Screenshot

The changes I made were to the language used to communicate with customers. I wanted to make it sound a bit more professional. Below is a screenshot for each git command for each change made to the HTML files after completing the steps in C:

```

Step D Two Screenshots

Here is when I created a readme branch. Below is a screenshot of the command line action after completing the steps in D:

```
FasterSSD@DESKTOP-25U5USE MINGW64 ~/documents/wgu/d197/001083248_d197/001083248_d197/wgu_hub (main)

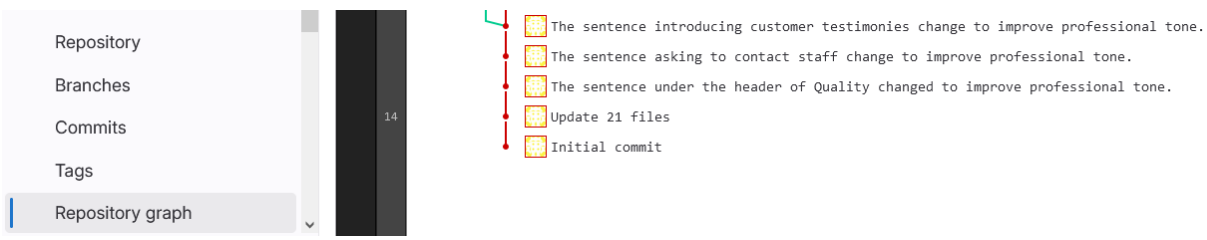
```

The readme branch was successfully created. Below is a screenshot of the current repository graph in Gitlab after completing the steps in D:



Step E Two Screenshots

This step was a bit tricky. I ended up creating many conflicts but was able to successfully edit the readme and push it to the repository. Below is a screenshot that demonstrates the conflict of a merge command line action after completing the steps in E:

```
FasterSSD@DESKTOP-25U5USE MINGW64 ~/documents/wgu/d197/001083248_d197/001083248_d197 (main)

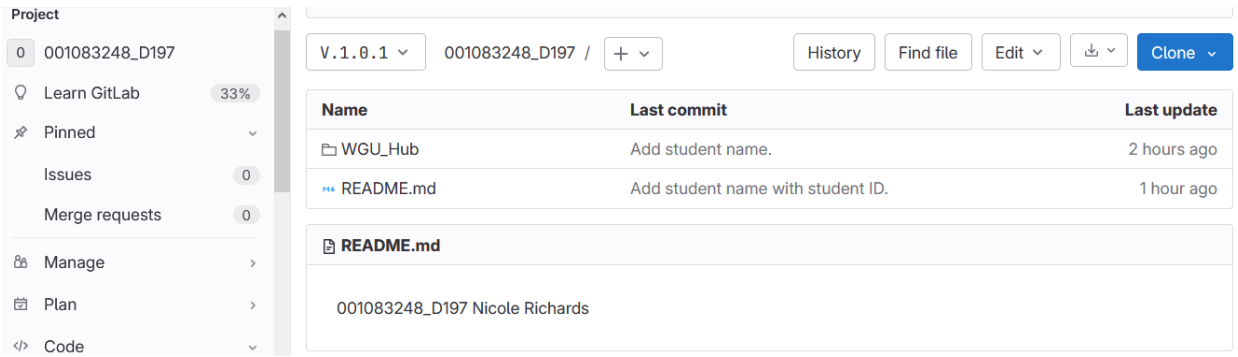
After several attempts, I successfully merged the branch. Below is a screenshot of the current repository graph in Gitlab after completing the steps in E:



Step F Two Screenshots

I created a tag and commented it. Below is a screenshot of the command line action after completing the steps in F:

```
FasterSSD@DESKTOP-25U5USE MINGW64 ~/documents/wgu/d197/001083248_d197/001083248_d197 (main)

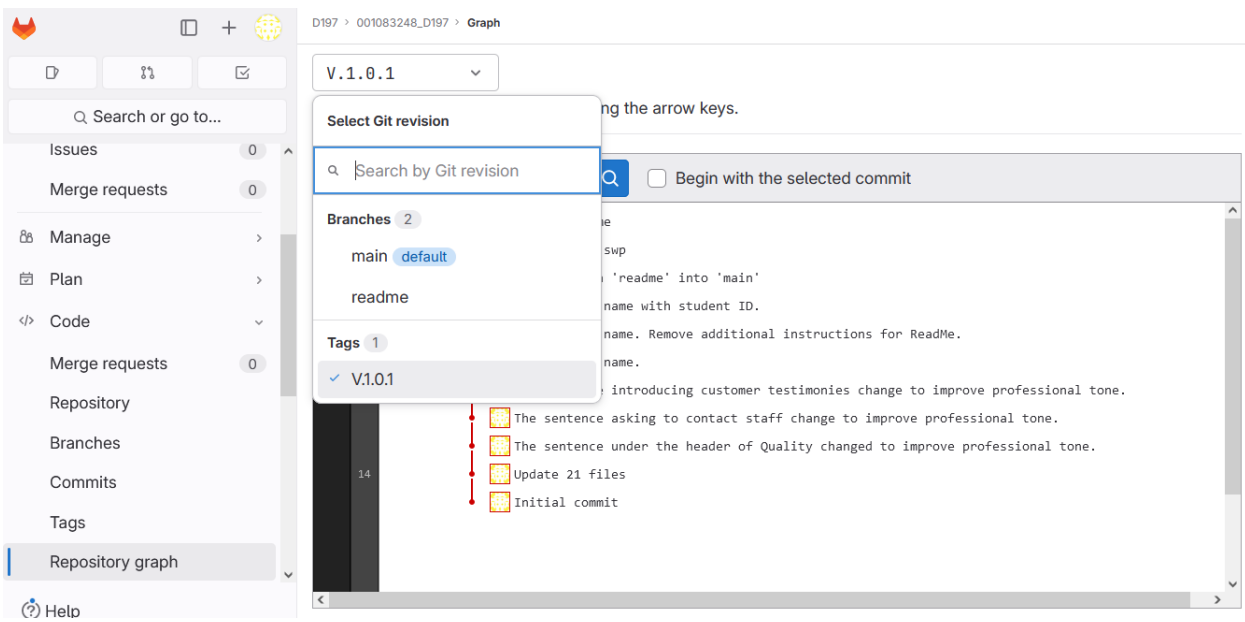
```


I selected the drop-down menu and was able to see my tag of V.1.0.1. Below is a screenshot of the current repository graph in Gitlab after completing the steps in F:
